

This Revenue Manual was developed to provide a comprehensive reference source for all revenue collected by the City of St. Augustine. The manual is an in depth view of the City's revenue sources and its purpose is to provide detailed information of the types of revenue that the City of St. Augustine utilizes to provide public services to the community. The City relies on a variety of revenue sources in order to finance the cost of services provided to its residents.

Some of the revenues can be directly associated with the cost of specific services. Examples include user fees charged for water, wastewater, stormwater, solid waste collection services, the use of the Municipal Marina and the use of the parking garage.

Other governmental revenue sources cannot be related directly to underlying services, primarily because the services do not lend themselves to cost recovery using a direct user charge. Examples are police services and street paving. These public services are funded through a variety of revenue sources including property, sales and gas tax, franchise fees and parking meter revenues.

This manual describes revenues in each of the following City Funds:

**General Fund:** The General Fund is the general operating fund of the City. All general tax revenue and receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. The general operating expenditures, fixed charges, and capital improvement costs that are not paid through other funds are paid from the General Fund.

**Utility Fund:** The Utility Fund accounts for the operation, maintenance and construction of the City-owned water and sewer system. Revenues collected here are for water and wastewater use by inside-City customers and those customers in our service area that are located outside of the City limits. Revenues are also collected for connection fees and added capacity fees.

**Stormwater Fund:** The revenues collected for the City's Stormwater Drainage Fund are used for operating expenses and capital improvements directly related to the management of stormwater. This also includes the enhancement of existing stormwater system maintenance.

**Solid Waste Fund:** The Solid Waste Fund accounts for the operation and maintenance of the City-owned solid waste pick-up and disposal service. The fund also supports street cleaning services. Revenues from the licensing of private collectors, commercial franchise fees, recycling fees, residential and commercial collection fees, support this fund.

**Municipal Marina Fund:** The Marina Fund accounts for operations and maintenance of the City-owned Municipal Marina facilities. Revenues are charged for dockage, mooring, rental and other Marina uses.

**Visitor Information Center Fund:** The Visitor Information Center Fund accounts for the operation and maintenance of the City-owned Visitor Information Center and Historic Downtown Parking Facility. Revenues are generated from parking fees and gift shop revenues.

Revenues highlighted in yellow represent opportunities for potential increases/changes in the amount of revenue generated for the City of St. Augustine.

## AD VALOREM TAXES

### Description:

A levy against the taxable value of real and personal property. The City Commission sets the millage rate annually prior to October 1<sup>st</sup>. One mill is \$1 of tax per \$1,000 of taxable assessed value. The adopted operating millage for FY 2017 is 7.5.

### Legal Authority:

Florida Constitution, Article VII, Section 9  
Chapters 192-197 and 200, Florida Statutes  
City of St. Augustine Code Sec. 2-190.

### Authorized Exemptions:

All legal Florida residents are eligible for a Homestead Exemption on their homes, condominiums, apartments and certain mobile home lots if they qualify. The Florida Constitution provides this tax-saving exemption on the first and third \$25,000 of the assessed value of an owner/occupied residence. The St. Augustine City Commission has approved an additional \$25,000 senior exemption for households headed by person 65 years or older and who meet income requirements. An additional \$25,000 homestead exemption may be implemented in FY 2019 if passed by voters in November 2017. This could have a potential impact on City revenues of \$450,000 or more.

### Fiscal Capacity:

St. Augustine's millage rate has remained at 7.5 since 2010. St. Augustine has the capacity to levy up to 10 mills for operating expenditures based on State law. The millage rate is set by the Commission each fiscal year. The amount of revenue received is the result of two factors: 1) the tax rate (millage) set by the City Commission; and 2) the value the St. Johns County Property appraiser places upon the property. An increase in millage would result in approximately \$136,000 in revenue for each tenth of a mill increase. Commission approval is required for any change in millage rate.

# GAS UTILITY TAX

## Fiscal Capacity:

The City is not currently levying the maximum rate for this revenue source. Instead of levying the maximum of 10% of all sales, the City levies 10% on the first \$100 and 1% thereafter of applicable revenues. The two factors that determine the amount of revenues collected for this fee are the sales of natural gas in the City and the assessment rate. The current capacity for increasing this revenue would be from raising the rate to 10% of all sales, which is the maximum allowed by Florida Statute or increasing the sales through the gas company raising fees. ## Fiscal Capacity:

A business tax rate increase would require St. Augustine City Commission approval and adherence to the guidelines of Florida State Statutes. The business tax rate can increase 5% every other year by June 30. The expectation is for business tax receipts to remain stable because there is no significant change anticipated in the number of new businesses in the next fiscal year. The Florida Legislature has proposed changes to this tax; however, no changes have occurred to date.

## Legal Authority:

Florida Statute chapters 206, 212, and 218  
Florida Revenue Sharing Act of 1972.  
Florida Statute section 218.62

## Fiscal Capacity:

In order to calculate the municipal sales tax collection factor, it is first necessary to allocate a share of the sales tax collected within a county to each of its respective municipalities. This allocation is derived based on population. Once that is done, an apportionment factor is calculated by the Department of Revenue for each eligible municipality using a formula consisting of the following equally weighted factors: adjusted municipal population, derived municipal sales tax collections, and municipality's relative ability to raise revenue.

# HALF-CENT SALES TAX

## Description:

Authorized in 1982, this program generates the largest amount of revenue for local governments among the state-shared revenue sources currently authorized by the Legislature. Monies remitted by a sales tax dealer located within the county and transferred into the Trust Fund are earmarked for distribution to the governing body of that county and each municipality within that county. An allocation formula serves as the basis for distribution. The primary purpose of this revenue is to provide relief from ad valorem and utility taxes while providing counties and municipalities with revenue for local programs.

## Legal Authority:

Florida Statute chapters 202.18(2), 212.20(60) and 218.60-67  
Florida Statute chapter 218.62-218.65

## Fiscal Capacity:

The allocation factor for each municipal government is computed by dividing the municipality's total population by the sum of the county's total population plus two-thirds of the County incorporated population. Each municipality's distribution is then determined by multiplying the allocation factor by the sales tax monies earmarked for distribution within its respective county.

An increase in the City of St. Augustine's population or eligible countywide sales would result in an increase in this revenue for the City.

# MOBILE HOME LICENSE TAX

## Description:

Counties, municipalities, and school districts receive proceeds from an annual license tax levied on all mobile homes and park trailers, and on all travel trailers and fifth-wheel trailers exceeding 35 feet in body length. Licenses vary from \$20 to \$80 depending upon length of the mobile home. Currently, \$1.50 of this fee is retained by the State for its general fund. The mobile home relocation trust fund receives \$1.00 and the remainder is divided 50/50 between the City and the school board where the mobile unit is located.

## Legal Authority:

Florida Statute Chapter 320.015, 320.08, 320.08015, 320.081.

The first is a tax of 1 cent on every net gallon of motor and diesel fuel sold within a County. The second is a tax of 1 to 6 cents on every net gallon of motor and diesel fuel sold within a County. Florida Statute chapter 206.41(1)(e), 206.87(1), and 336.025

## Fiscal Capacity:

This revenue source is distributed to the City through an Inter-local agreement with the County. The formula for distribution to municipalities is based on population. An increase in the percent levied on motor fuel by St. Johns County, and increase in the amount of motor fuel sold in St. Johns County and/or an increase in the City of St. Augustine's population would result in an increase in this revenue for the City.
