Reconciliation of Governmental Funds Balance Sheet to the Statement of Net Assets September 30, 2008

Total Governmental Fund Balances

\$ 14,905,990

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds.

Governmental capital assets	40,644,679
Less accumulated depreciation	(17,995,320)
	22,649,359

22,649,359

Long-term liabilities, including bonds payable are not due and payable in the current period and therefore are not reported in the governmental funds. Long-term liabilities (net of discounts/premiums and deferred amounts on refunding) at year-end consist of:

Governmental bonds payable	(7,972,675)
Settlements payable	(100,000)
Compensated absences	(1,996,846)

(10,069,521)

Negative net pension obligations are not reported as assets of the governmental funds.

Net pension assets 1,125,622

Net Assets of Governmental Activities

\$ 28,611,450

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended September 30, 2008

Net Change in Fund Balances - Total Governmental Funds		\$	211,836
Amounts reported for governmental activities in the statement of activities are different because:			
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of capital and related assets is allocated over their estimated useful lives and reported as depreciation and amortization expense.			
Expenditures for capital assets	1,560,586		
Capitalized interest	-		
Less: current year depreciation and amortization	(1,331,357)	_	229,229
Borrowing and repayment of bond principal is either a revenue or an expenditure in the governmental funds, the borrowing and repayment of principal either increases or reduces long-term liabilities in the statement of net assets.			
Principal payments and retirement of debt	303,812	-	303,812
Government funds do not report negative net pension obligations as assets of the general fund.			
Net pension asset	194,467	-	194,467
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.			
Gain on transfer of capital asset to propritary fund	_		
Cost of capital assets sold or retired net	(31,520)		
Change in long-term settlement obligations	200,000		
Change in long-term compensated absences	(116,407)		52,073
	<u>-</u>		004 117
Change in Net Assets of Governmental Activities		<u>\$</u>	991,417

Notes to the Financial Statements September 30, 2008

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The City of St. Augustine, Florida (the City), was established in 1925, by Special Legislative Act 11148 of the Florida Legislature. The City operates under a commission-manager form of government and provides the following services as authorized by its charter: General Government, Public Safety, Public Works, Public Utilities, Culture, Recreation, and Community Development.

The accounting and reporting policies of the City relating to the funds included in the Basic Financial Statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments. Generally accepted accounting principles for local governments include those principals prescribed by the Government Accounting Standards Board (GASB), the American Institute of Certified Public Accountants in the publication entitled *Audits of State and Local Governments* and by the Financial Accounting Standards Board (when applicable). The City applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental and business-type activities (proprietary funds) provided they do not conflict with or contradict GASB pronouncements. The City has elected not to apply FASB pronouncements issued after November 30, 1989, to its business-type (proprietary funds) activities.

A. Financial Reporting Entity

As required by generally accepted accounting principles, the financial statements of the reporting entity include those of the City of St. Augustine, Florida, and its blended component units. The blended component units discussed here are included in the City's reporting entity because of the significance of their operational or financial relationships with the City.

The City currently has separate and distinct defined benefit pension plans for the City's general employees, firefighters and police officers. These plans are legally separate from the City and are governed by board members who are both elected by their peers and appointed by the City Commission. For financial reporting purposes, these plans are reported as if they were part of the City's operations as the sole purpose of the plans are to provide retirement benefits for the City's employees. These plans have separately issued financial statements that can be obtained through the City Clerk's office.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the City. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Indirect costs are included in the program expense reported for individual functions and activities. Program revenues include charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major proprietary funds are reported as separate columns in the fund financial statements.

Notes to the Financial Statements September 30, 2008

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

Taxes, intergovernmental revenue, licenses and permits, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Since the fund level statements for governmental activities are presented using a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented on the page following governmental fund level statements. The reconciliation briefly explains the adjustments necessary to convert the fund level statements into the government-wide governmental column presentations.

The City reports the following funds:

Major Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The General Fund and Special Revenue Fund have legally adopted annual budgets. The following are the City's major governmental funds:

a. General Fund

The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. Resources are generated primarily from local property and utility service taxes, franchises, licenses, permits and fees, intergovernmental revenues and charges for services. Expenditures are incurred to provide public safety, general government, public works, parks and recreation services.

b. Special Revenue Fund

The Special Revenue Fund is used to account for specific revenues that are legally restricted to expenditures for particular purposes. The Special Revenue Fund used by the City is the Community Redevelopment Agency Fund. This fund was established by ordinance in 2000 to assist the City in redeveloping the Historic Area Community Redevelopment Area (HACRA), a blighted transportation and

Notes to the Financial Statements September 30, 2008

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

parking geographical area principally located in the historic downtown area.

c. Capital Project Fund

The Capital Project Fund is used to account for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The principal sources of revenue are bond issue proceeds and transfers from the General Fund.

d. Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal and interest of the governmental funds.

e. Permanent Fund

This fund includes the Anderson and Woodman Trust Funds and accounts for assets held by the City as a trustee for individuals.

Major Proprietary Funds

Proprietary Funds are used to account for activities that are similar to those often found in the private sector. All assets, liabilities, equities, revenues, expenses, and payments relating to the government's business activities are accounted for through proprietary funds. Proprietary funds used by the City are:

a. Utility Fund

This fund accounts for the operation, maintenance, and construction of the City-owned water and sewer system.

b. Stormwater Drainage Fund

This fund accounts for the operation, maintenance and construction of the City-owned stormwater drainage system.

c. Solid Waste Fund

This fund accounts for the operation and maintenance of the City-owned solid waste pick-up and disposal service.

d. Municipal Marina Fund

This fund accounts for the operation and maintenance of the City Municipal Marina facilities.

e. Heritage Tourism Fund

This fund accounts for the operation and maintenance of the City-owned Visitors Information Center, and State owned properties that are managed by the City.

Fiduciary Funds

Fiduciary Funds are used to account for assets held by the City as a trustee or agent. Fiduciary Funds used by the City are:

Notes to the Financial Statements September 30, 2008

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

a. General Employees' Pension Plan

This fund accounts for the contributions of the general employees and the City, along with the benefits paid to the retired participants of the plan.

b. Police Officers' Retirement System

This fund accounts for the contributions of the police officer employees, the City and the State of Florida, along with the benefits paid to the retired participants of the plan.

c. Firefighters' Pension Plan

This fund accounts for the contributions of the firefighter employees, the City and the State of Florida, along with the benefits paid to the retired participants of the plan.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are administration overhead charges between the general fund and the funds benefited. Elimination of these charges would distort the direct costs for the various functions concerned.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's proprietary funds are charges to customers for goods and services. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as needed.

The budget is prepared on a GAAP basis and may be over-expended to the extent that actual revenues exceed the adopted budget.

D. Cash and Cash Equivalents

The City pools cash resources of its various funds to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash accounts is available to meet current operating requirements. Cash in excess of current requirements is invested with the State Board of Administration (SBA) Pool and two fully collateralized investment accounts with qualified public depositories. All of these investments are considered cash equivalents due to their liquidity and similarity to cash.

E. Investments

Investments within the Pension Trust Funds are made through financial brokers and are held by trustees. These assets are stated at fair value as determined in an active market.

Notes to the Financial Statements September 30, 2008

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

F. Receivables and Allowance for Uncollectible Accounts

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Estimated unbilled revenues from the Utility, Stormwater, and Solid Waste Funds are recognized at the end of each fiscal year on a pro rata basis. The estimated amount is based on billings during the month following the close of the fiscal year. Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are classified as "due to/due from other funds".

G. Inventories

Inventories held by the General Fund are valued at cost using the first-in/first-out (FIFO) method. The inventory items are recorded as expenditures at the time the items are withdrawn from central stores. The inventory value has been recorded as an asset, offset by a reserve in an equal amount.

Inventories in the proprietary funds are valued at the lower of cost (using FIFO method) or market. Inventories of the proprietary funds are expensed as used.

H. Restricted Assets

These assets consist of cash restricted for debt service, construction, renewal and replacement, and customer deposits (See Note 2).

I. Capital Assets

Capital outlays are recorded as expenditures in the Governmental Fund Financial Statements, and as assets in the Government-wide Financial Statements to the extent the City's capitalization threshold of \$5,000 is met. In accordance with GASB Statement No. 34, infrastructure has been capitalized. Infrastructure consists primarily of streets, curbs and sidewalks. Depreciation is recorded on general capital assets (except for land and construction in progress) on a government-wide basis using the straight-line method over the following estimated useful lives:

Buildings30 yearsFurniture and Other Equipment3-20 yearsInfrastructure20-50 years

To the extent the City's capitalization threshold of \$5,000 is met, capital outlays of the Proprietary Funds are recorded as capital assets and depreciated over their estimated useful lives on a straight-line basis on both the fund basis and the government-wide basis using the following estimated useful lives:

Buildings 10-50 years Infrastructure & Improvements 10-40 years Equipment 2-10 years

All capital assets were valued at historical cost or estimated historical cost if actual cost was not available. Donated capital assets are valued at their estimated fair market value on the date donated. The City does not capitalize historical treasurers or works of art. The City maintains many items and buildings of historical significance. The City does not require the proceeds from the sale of historical treasures or works of art be used to acquire other items for the collection.

Maintenance, repairs, and minor equipment are charged to operations when incurred. Expenses that materially change capacities or extend useful lives are capitalized. Upon sale or retirement of land, buildings, and

Notes to the Financial Statements September 30, 2008

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

equipment, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the results of operations in the government-wide financial statements.

J. Deferred Charges

Deferred charges represent the remaining costs associated with issuing various bonds. These costs are being amortized using the straight-line method over the related life of the respective bond issues. Unamortized bond costs at September 30, 2008 are as follows:

	 Original Cost	Accumulated Amortization		Unamortized Costs	
Beginning of the year	\$ 1,065,446	\$	(140,131) (55,552)	\$	925,315
Current year additions End of year	\$ 1,065,446	\$	(195,683)	\$	(55,552) 869,763

K. Compensated Absences

Annual vacation leave is accumulated in the following manner:

General, Municipal & Police Employees: 80 hours per year with five years or less, 88 hours with six

years, 96 hours with seven years, 104 hours with eight years, 112 hours with nine years, 120 hours with ten to fifteen years, 128 hours with sixteen years, 136 hours with seventeen years, 144 with eighteen years, 152 with nineteen years, maximum per employee is 160 hours with 20 or more years of service.

Fire Department Employees: 120 hours per year with five years or less, 156 hours with six

years, 165 hours with seven years, 174 hours with eight years, 183 hours with nine years, 192 hours with ten to fifteen years, 216 hours with sixteen years, 228 hours with seventeen years, 241 with eighteen years, maximum per employee is 252 hours

with 20 or more years of service.

Sick leave is available to be paid at termination, retirement or resignation as follows:

General and Municipal Employees:

Fire Department Employees:

Police Department Employees:

80 hours per year, no maximum
112 hours per year, no maximum
80 hours per year, no maximum

The City has accrued for sick and vacation leave earned but unused at year end. This accrual was based on unused sick and vacation hours available to employees as maintained by the City's payroll system and as multiplied by each eligible employees individual hourly pay rate. Liquidation of the accrued sick and vacation leave has historically come from the general fund.

L. Long-Term Obligations

In the government-wide financial statements, governmental long-term debt and other governmental long-term obligations are reported as liabilities in the governmental activities column of the Statement of Net Assets.

Notes to the Financial Statements September 30, 2008

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Long-term debt and other long-term obligations of the proprietary funds are reported as liabilities in the businesstype activities column of the Statement of Net Assets and the appropriate proprietary fund in the fund level statements.

M. Defeased Bond Costs

Defeased bond costs represent the bond discount or premium and gain or loss on refunding of various bond issues. These costs are being amortized over the life of the respective bond issues using the straight-line method, which is comparable to the effective interest method. Defeased bond costs at September 30, 2008 are as follows:

	Original Cost		Accumulated Amortization		Unamortized Costs	
Beginning of the year	\$	1,571,883	\$	(911,820)	\$	660,063
Current year additions		-		(191,533)		(191,533)
End of year	\$	1,571,883	\$	(1,103,353)	\$	468,530

N. Fund Balance

Reserves

The City reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent expendable resources and therefore are not available for appropriation or expenditure.

The following is a list of reserves used by the City and a description of each:

<u>Reserved for Inventories</u> - An account used to designate amounts set aside for supplies inventory.

<u>Reserved for Police Education/Confiscation/Donations</u> - An account used to designate amounts set aside for police education and confiscations.

<u>Reserved for Tree Memorial Fund</u> - An account used to designate amounts set aside for the City's tree planting projects.

<u>Reserved for Prepaid Expenditures</u> - An account used to designate amounts set aside for the expenditures not yet expended (i.e., copier supplies and postage).

Reserved for Trust Funds - An account used to designate amounts set aside for the Anderson and Woodman trust funds.

<u>Reserved for Community Redevelopment Area</u> - An account used to designate amounts set aside for the redevelopment of a specific geographical blighted transportation and parking area.

O. Revenue Recognition – Property Taxes

Property tax revenue is recognized when it becomes available and measurable. Property taxes, under Florida law, levied on November 1 by the County Tax Appraiser and collected by the County Tax Collector become a lien on November 1.

Notes to the Financial Statements September 30, 2008

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

The law allows a four percent discount if paid in November, a three percent discount if paid in December, a two percent discount if paid in January, and a one percent discount if paid in February. Taxes become delinquent on April 1 of each year. Delinquent real estate taxes are advertised during the month of May. Tax certificates are sold on May 30, at a public sale, against property on which the current taxes have not been paid. If not redeemed within two years, the property will be subject to an application for tax deed.

In accordance with National Council on Governmental Accounting (NCGA) Interpretation 3, property taxes that are measurable but not available are reported as deferred revenue. The deferred revenues are recognized in the fiscal year in which they become available. The City had no taxes subject to this deferral at year-end.

P. Expenditures

Expenditures are recognized when the related fund liability is incurred. Inventory costs are reported in the period when inventory items are used, rather than in the period purchased. The General Fund provides administrative services and incurs overhead costs relating to the Proprietary Funds. The General Fund charges the Proprietary Funds an administrative overhead charge, which is included in direct expenses.

NOTE 2. DEPOSITS AND INVESTMENTS:

A. Cash and Cash Equivalents

The City maintains a cash and investment pool that is designed for use by all funds. For the purposes of cash flows, the City considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents. In addition, investments are separately held and accounted for by several of the City's funds where contractual agreements and bond covenants provide for and require such arrangements.

At September 30, 2008, the carrying amount of cash on hand was \$724,385 and the related bank balance was \$743,736. Monies, which are placed on deposit with financial institutions in the form of demand deposit accounts, are defined as Public Deposits and as such are secured as provided for in Chapter 280, Florida Statutes. Financial institutions, which meet the requirements for this chapter, can be designated as qualified public depositories eligible to receive Public Deposits. This chapter also created the Public Deposit Security Trust Fund to facilitate the recovery of administrative penalties resulting from the default or insolvency of any qualified Public Depository and the subsequent payment of any losses to Public Depositors. When Public Deposits are made in accordance with this statute, no Public Depositor shall be liable for any loss thereof. Thus, all deposits at year-end are insured or collateralized with securities pursuant to Chapter 280, Florida Statutes.

State Statutes govern the City's investment policies. The basic allowable investment instruments include the Local Government Surplus Funds Trust Fund (State Board); Securities and Exchange Commission (SEC) registered money market funds with the highest credit quality rating; interest-bearing time deposits or savings accounts in qualified public depositories; direct obligations of the United States Treasury; Federal agencies and instrumentalities; other investments authorized by law or ordinance for a county or municipality.

The State Board consists of the Local Government Surplus Trust Fund (LGIP) and the Fund B Surplus Funds Trust Fund (Fund B). The LGIP is a 2a7-like external investment pool. The fair value of the position in the external investment pool is the same as the value of the pool shares. The LGIP is rated by Standard and Poors and currently has a rating of AAAm. The LGIP balance of \$24,426,900 had an average of 8.5 days to maturity as of September 30, 2008. The Fund B is accounted for as a fluctuating net asset value (NAV) pool. The Fund B is not rated by any nationally recognized statistical rating agency. The fair value of the City's Fund B investment was \$1,272,614 and had a weighted average life of 9.36 years as of September 30, 2008. A government money market account with a qualified public depository was established and funded by the City in 2008. This account is fully collateralized and held a balance of \$5,136,319 as of September 30, 2008.

Notes to the Financial Statements September 30, 2008

NOTE 2. DEPOSITS AND INVESTMENTS: (Continued)

B. Investments—General Pension Plan

Interest Rate Risk

The General Pension Plan Investment Policy limits interest rate risk by limiting fixed-income securities to an average maturity of 12 years or less, including investments in government issues, corporate bonds rated A quality or higher and/or the Government National Mortgage Association pooled obligations. There may be exceptional circumstances indicating the use of longer maturities, but these exceptions should be few.

					Inv	estment Matur	ities	(in Years)			
Fair		Fair	Fair Less			Between		Between		More	
Investment Type		Value Than 1		Than 1	1-5		6-10			Than 10	
Real Estate Account	\$	2,116,010	\$	2,116,010	\$	-	\$	-	\$	-	
Bond & Mortgage Account	\$	6,614,265	\$	456,384	\$	1,478,950	\$	855,224	\$	3,803,202	
Corporate & Foreign Bonds	\$	386,596	\$	-	\$	-	\$	386,596	\$	-	
Mutual FundsInternational Equity	\$	1,484,288	\$	1,484,288	\$	-	\$	-	\$	-	
Cash & Short Term Investments	\$	593,678	\$	593,678	\$	-	\$	-	\$	-	
U.S. Stock Fund	\$	8,179,238	\$	8,179,238	\$	-	\$	-	\$	-	
	\$	19,374,075	\$	12,829,598	\$	1,478,950	\$	1,241,820	\$	3,803,202	

Credit Risk and Concentration of Credit Risk

Excessive concentration of assets will be avoided. Excessive Concentration is defined as having more than five percent on a cost basis of the equity portfolio in any single common stock or having more than five percent on a cost basis of the portfolio in fixed-income securities of one specific issue, with the exception of the securities of the U. S. Government and its agencies and high quality market funds, as stated in the plan's investment policy.

Foreign Currency

Investment in Foreign Securities is allowed under the investment plan; however, not more than ten percent of the total equity portfolio may be invested in Foreign Securities.

C. Investments—Police Pension Plan

Interest Rate Risk

The St. Augustine Police Retirement System's investment policy limits fixed income securities normally to an average maturity of 12 years or less, including investments in government issues, corporate bonds rated A quality or higher and/or Government National Mortgage Association pooled obligations. There may be exceptional circumstances indicating the use of longer maturities, but these exceptions should be few. As of September 30, 2008, the St. Augustine Police Officer's Retirement System had the following investments and maturities:

				Investment Maturities (in Years)						
	S&P	Fair		Less		Between		Between		More
Investment Type	Rating	Value		Than 1		1-5		6-10		Than 10
U.S. Government Obligations	AAA	\$ 1.427.244	•	_	\$	_	\$	1.427.244	\$	
· ·		, , ,	Ф	-	-		ф	, .,	Ф	
Bond & Mortgage Account	A-AAA	\$ 2,750,347	\$	-	\$	1,757,519	\$	643,213	\$	349,615
U.S. Stock Fund		\$ 6,751,320	\$	6,751,320	\$	-	\$	-	\$	911,454
Total		\$ 10,928,911	\$	6,751,320	\$	1,757,519	\$	2,070,457	\$	1,261,069

Notes to the Financial Statements September 30, 2008

NOTE 2. DEPOSITS AND INVESTMENTS: (Continued)

Credit Risk and Concentration of Credit Risk

Excessive concentration of assets will be avoided. Excessive Concentration is defined as having more than five percent on a cost basis of the total portfolio in any single common stock or having more than five percent on a cost basis of the portfolio in fixed-income securities of one specific issue, with the exception of the securities of the U. S. Government and its agencies and high quality market funds, as stated in the plan's investment policy.

Foreign Currency

Investments in foreign equity securities are not allowed under the investment plan unless they are American Depository Receipts listed on the New York Stock Exchange.

D. Investments—Firefighters' Pension Plan

Interest Rate Risk

The St. Augustine Firefighters' Pension Trust Fund limits all investments in corporate fixed income securities to those that hold a rating of A quality or higher. There is no limit imposed on investments in fixed income securities issued directly by the U. S. Government. The Plan limits the effective duration of its investment portfolio through the adoption of the Merrill Lynch Government/Corporate Bond Index bench mark. It is expected that the average duration of the total fixed income portfolio will not exceed 150% of the duration of the Index. As of September 30, 2008, the St. Augustine Firefighters' Pension Trust Fund held the following fixed income investments:

Investment Type	% of Fund	I	Fair Value	S&P Rating	Effective Duration
US Government Agencies	27%	\$	1,975,295	AAA	3.4-4.0
Corporate Bonds	15%	\$	1,079,775	A-	3.9
Foreign Bonds	2%	\$	141,622	BBB+A	4.2
Temporary Invesment Funds	5%	\$	356,347	AAA	Daily
		\$	3,553,039	:	

Credit Risk and Concentration of Credit Risk

Excessive concentration of assets will be avoided. Excessive concentration is defined as having more than ten percent of the total value of the portfolio being invested in the securities of any single corporate issuer, as stated in the plan's investment policy.

Foreign Currency Risk

Investment in Foreign Securities is allowed under the plan; however, no more than ten percent of the plan's total assets may be in invested in Foreign Securities.

Notes to the Financial Statements September 30, 2008

NOTE 3. ACCOUNTS RECEIVABLE:

Receivables at September 30, 2008, consist of the following:

		Governmental Activities						
		General		General		Capital Projects	siness-Type Activities	 Total

Chemical Feed Pump Replacement	 18,177
Total	\$ 21,892,907

NOTE 5. RISK MANAGEMENT, LITIGATION AND COMMITMENTS:

The City is exposed to various risks of losses related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. A small portion of the risk is covered by commercial insurance. The majority of this risk (Workers Compensation, Property and Liability) is covered through the Florida Municipal Insurance Trust (the "Trust"). The City pays an annual premium to the Trust for its coverage. The premiums are designed to fund the liability risk assumed by the Trust and are based on certain actual exposures and appropriate classifications of each member. The coverage provided for Workers Compensation is \$1,000,000 for each occurrence. Coverage provided for Property and Liability is \$100,000 for each person and \$200,000 for each occurrence. The City also has Specific Excess Coverage of \$1,000,000 through the Trust. There were no claims paid that exceeded coverage in the past three fiscal years. Employee medical benefits are covered by commercial insurance. The City Attorney estimates that the amount of these actual or potential claims against the City as of September 30, 2008, will not materially affect the financial condition of the City. Therefore, the financial statements contain no provision for estimated claims.

The City of St. Augustine has an outstanding environmental compliance issue at City property located west of St. Augustine. During the construction of a wetlands mitigation project, the City excavated and disposed of fill that the Florida Department of Environmental Protection (FDEP) considers solid waste. The City negotiated a Consent Order to remove the material and dispose it in compliance with FDEP guidelines. The Consent Order was approved on May 20, 2008 by the City and FDEP. The work will be completed by May, 2009 and in full compliance with the Consent Order.

The City also has a Consent Order to replace the waste water treatment plant outfall to the Intracoastal Waterway. The project is nearing completion of environmental permitting and we anticipate construction completion by July, 2009. The City is fully compliant with all terms of the Consent Order.

At September 30, 2008, the City had outstanding commitments of approximately \$3,805,000 relating to construction contracts.

Notes to the Financial Statements September 30, 2008

NOTE 6. LONG-TERM DEBT:

Governmental Funds

Public Service Tax and Guaranteed Entitlement Revenue Refunding & Improvement Bonds, Series 2001:

On February 14, 2001, the City Issued Public Service Tax and Guaranteed Entitlement Revenue Refunding & Improvement Bonds totaling \$11,819,829 to refund the 1992 Series Revenue Bonds and to construct a fire station, a fleet operations building and other capital improvements for the City. Revenue is provided by an excise tax levied by the City on purchases of electricity, metered or bottled gas, local telephone service, and heating oil or kerosene. The revenue is subject to a first lien and is pledged to provide funds for the retirement of the bonds. Payment of maturing principal and interest (3.5 percent to 5.0 percent) is currently provided for in the Debt Service Fund.

Principal payments are due annually on October 1, and interest payments are due semi-annually on April 1 and October 1. The annual requirement to amortize long-term bonded debt outstanding as of September 30, 2008 is as follows:

Public Service Tax & Guaranteed Entitlement Revenue Refunding & Improvement Bonds

Bond Year Ended	Series 2001

Capital Improvement and Refunding Revenue Bonds, Series 2004:

On October 14, 2004, the City Issued Capital Improvement and Refunding Revenue Bonds totaling \$22,155,000 to refund the 1995 Series Revenue Bonds and construct a parking garage and other capital improvements for the City. The Series 2004 Bonds and the interest thereon are secured by and payable solely from (1) Non-Ad Valorem Revenues budgeted and appropriated by the City in accordance with the Resolution and deposited into the Debt Service Fund, and (2) until applied in accordance with the provisions of the Resolution, all monies, including the investments thereof, in the funds and accounts established under the Resolution, with the exception of the Rebate Fund (collectively the "Pledged Funds"). Pursuant to the Resolution, the City covenants and agrees to appropriate in its annual budget, by amendment if necessary, for each Fiscal Year sufficient amounts of Non-Ad Valorem Revenues for the payment of principal of and interest on the Series 2004 Bonds and to make certain other payments required under the Resolution in each such Fiscal Year. Such covenant to budget and appropriate does not create any lien upon or pledge of such Non-Ad Valorem Revenues until such funds are deposited in the Debt Service Fund, nor does it preclude the City from pledging in the future or covenanting to budget and appropriate in the future its Non-Ad Valorem Revenues, nor does it require the City to levy and collect any particular Non-Ad Valorem Revenues, nor does it give the holders of the Series 2004 Bonds a prior claim on the Non-Ad Valorem Revenues as opposed to claims of general creditors of the City. The City does not covenant to maintain any services or programs not maintained or provided by the City including those which generate Non-Ad Valorem Revenues. The Resolution defines Non-Ad Valorem Revenues as all legally available non-ad valorem revenues of the City, which are legally available to make the payments required by the Resolution, but only after provision has been made by the City for payment of services and programs which are

Notes to the Financial Statements September 30, 2008

NOTE 6. LONG-TERM DEBT (Continued)

for essential public purposes affecting the health, welfare and safety of the inhabitants of the City or which are legally mandated by applicable law. This issuance results in a \$240,599 difference in cash flow requirements with a present value economic gain of \$183,406.

Payment of maturing principal and interest (2.00 percent to 5.00 percent) on these bonds is provided for in the Debt Service Fund. Principal payments are due annually on October 1, and interest payments are due semi-annually on April 1 and October 1. The annual requirement to amortize bonded debt outstanding as of September 30, 2008 is as follows:

Enterprise Funds

Water and Sewer Revenue Refunding Bonds, Series 2005:

On July 7, 2005, the City issued Water and Sewer Revenue Refunding Bonds, Series 2005, totaling \$21,435,000 for the purpose of providing funds, together with other legally available funds of the City, to (i) refund the City's \$4,245,000 outstanding Water and Sewer Revenue Refunding Bonds, Series 1996, \$11,260,000 outstanding Water and Sewer Revenue Refunding Bonds, Series 1995A, \$365,000 outstanding Water and Sewer Revenue Refunding Bonds, Series 1995B and \$4,240,000 outstanding Water and Sewer Revenue Refunding Bonds, Series 1999 (the "1999 Bonds" and together with the bonds other than the 2005 Bonds described in this sentence, collectively, the "Refunded Bonds"), (ii) finance and reimburse the cost of certain capital improvements to the System and to pay the cost of issuance of the 2005 Bonds. This issuance results in a \$2,562,543 difference in cash flow requirements with a present value economic gain of \$1,068,491.

Proceeds will be used to finance and reimburse the cost of certain capital improvements to the System including, upgrading the waste water treatment facility and water treatment plant expansion. Payment of maturing principal and interest (3.00 percent to 5.00 percent) on these bonds is provided for in the Debt Service Fund.

Principal payments are due annually on October 1, and interest payments are due semi-annually on April 1 and October 1. The annual requirement to amortize bonded debt outstanding as of September 30, 2008 is as follows:

Water & Sewer Fund

Notes to the Financial Statements September 30, 2008

NOTE 6. LONG-TERM DEBT: (Continued)

Water and Sewer Revenue Bonds, Series 2003:

During the month of November 2003, the City issued capital appreciation Water and Sewer Revenue Bonds, Series 2003 totaling \$9,363,854, to finance and reimburse the cost of capital improvements to the City's water and sewer system, pay premiums for both municipal bond insurance and the Reserve Account Surety Bond, and pay the costs of issuance of the 2003 Bonds. Principal of premium, if any, and interest on the 2003 Bonds are payable solely from and secured by an irrevocable lien on and pledge of the Net Revenues derived from the operation of the City's water and sewer system on a parity with other water and sewer bond issues. The interest rate for Series 2003 varies from 4.15 to 5.17 percent. Restrictive covenants agreed to by the City are as follows:

- 1. The entire revenue of the System will be deposited upon receipt into a trust fund entitled the "Revenue Fund".
- 2. The disposition of revenue from the "Revenue Fund" shall be to pay the cost of operation and maintenance as a first priority, with all other expenditures prioritized in the following order:
 - a. Deposits to the Debt Service Fund
 - b. Deposits to the Renewal and Replacement Account
 - c. Any other lawful purpose
- 3. Funds are considered trust funds and are to be secured in the same manner as public deposits. (See Note 2).
- 4. The City will maintain the System in good condition, operate in an efficient and economical manner, maintain proper records, cause an independent audit within 120 days of fiscal year-end, not dispose of any necessary parts of the System, maintain adequate insurance, not furnish free service, require all structures to be connected to the System and employ consulting engineers to review the overall operations of the System on an ongoing basis.
- 5. The City will not issue additional obligations without first having an independent certified public accountant verify that coverage requirements of 125% are being met and that the City is not in default under the bond resolution.
- 6. The City can provide for the defeasance of the bonds by making necessary provisions for the payment of principal, interest and premium.

No principal or interest is due on the capital appreciation bonds until 2013, at which time principal and interest totaling \$17,640,000 will then be paid down over nine years as follows:

NOTE 6. LONG-TERM DEBT: (Continued)

Public Service Tax and Guaranteed Entitlement Revenue Refunding & Improvement Bonds, Series 2001:

On February 14, 2001, the City Issued Public Service Tax and Guaranteed Entitlement Revenue Refunding & Improvement Bonds totaling \$2,145,171 to refund the 1992 Series Revenue Bonds. Guaranteed Entitlement Revenue is provided by the State of Florida through the State Revenue Sharing Trust Fund. Revenue is provided by an excise tax levied by the City on purchases of electricity, metered or bottled gas, local telephone service, and heating oil or kerosene. The revenue is subject to a first lien and is pledged to provide funds for the retirement of the bonds. Payment of maturing principal and interest (3.5 percent to 5.0 percent) is currently provided for in the Municipal Marina Fund and the Visitors Information Center Fund.

Principal payments are due annually on October 1, and interest payments are due semi-annually on April 1 and October 1. The annual requirement to amortize bonded debt outstanding as of September 30, 2008 is as follows:

	\$	21,188,709	\$	18,926,794				

Prior Years' Debt Defeasance

In prior years, the City has defeased various bond issues by creating separate escrow accounts. New debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in escrow accounts.

The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes the debt has been considered defeased and therefore removed as a liability from the City's Government Wide Financial Statements and appropriate Enterprise Fund Statements. As of September 30, 2008, the City had \$4,441,988 escrowed defeased debt outstanding.

Notes to the Financial Statements September 30, 2008

NOTE 7. CHANGES IN LONG-TERM DEBT:

During the year ended September 30, 2008 the following changes occurred in the City's long-term obligations:

Primary Government Governmental Activities

		Balance			Balance	Current

NOTE 8. INTERFUND RECEIVABLES, PAYMENTS, AND TRANSFERS:

A. At September 30, 2008, interfund payments and transfers are as follows:

Fund Type/Fund	<u> </u>	Transfers-out		
GOVERNMENTAL FUNDS				
General Fund	\$	1,158,154	\$	2,463,716
Community Redevelopment Agency Fund		706,445		1,337,405
Debt Service Fund		487,571		-
Capital Projects Fund		349,312		-
Permanent Fund		-		564
PROPRIETARY FUNDS				
Utility Fund		1,474,273		1,139,094
Stormwater Fund		-		153,325
Solid Waste Fund		90,000		82,619
Municipal Marina Fund		-		-
Heritage Tourism Fund		1,309,421		398,453
	\$	5,575,176	\$	5,575,176

Notes to the Financial Statements September 30, 2008

NOTE 8. INTERFUND RECEIVABLES, PAYMENTS, AND TRANSFERS: (Continued)

Transfers are used to move unrestricted revenues collected to finance various programs accounted for in other funds in accordance with budgetary authorizations, and to segregate money for anticipated capital projects.

Fund Type/Fund	Administrative Overhead Charges		Administrative Overhead Expenses	
GOVERNMENTAL FUNDS				
General Fund	\$ 2,675,852	\$	-	
CRA			60,481	
PROPRIETARY FUNDS				
Utility Fund	-		1,763,495	
Stormwater Fund	-		161,383	
Solid Waste Fund	-		424,348	
Municipal Marina Fund	-		144,070	
Heritage Tourism Fund			122,075	
	\$ 2,675,852	\$	2,675,852	

Administrative overhead charges are primarily used to move funds from proprietary funds to the General Fund for an allocated amount of overhead. These charges are not eliminated in the financial statements as such elimination would not accurately report the activities of the funds benefited.

B. At September 30, 2008, interfund receivables are as follows:

Fund Type/Fund	 Due to		Due from		
GOVERNMENTAL FUNDS					
General Fund	\$ 1,483,348	\$	-		
Special Revenue	2,630,000		-		
Capital Projects Fund	-		83,984		
Permanent Fund	764		-		
PROPRIETARY FUNDS					
Utility Fund	-		4,873,347		
Stormwater Fund	260,000		-		
Solid Waste Fund	-		-		
Municipal Marina Fund	-		150,000		
Heritage Tourism Fund	733,219		-		
	\$ 5,107,331	\$	5,107,331		

Interfund balances represent amounts loaned to or borrowed from other funds to assist in financing the operations of the borrowing fund.

Notes to the Financial Statements September 30, 2008

NOTE 9. OPERATING LEASES:

The City leases various City and State owned buildings and properties under the terms of operating leases. The cost of the various buildings and properties leased is not specifically identifiable as most of the leases are for only a portion of the building or property occupied. Future rental income expected from these leases is as follows:

Year Ending	
September 30	 Amount
2009	\$ 1,424,383
2010	1,465,690
2011	1,508,195
2012	1,553,441
2013	1,600,044
Total future minimum rentals	\$ 7,551,753

NOTE 10. EMPLOYEE BENEFITS:

The City of St. Augustine has established three pension trust funds. Each plan is administered by a Board of Trustees in which City administration and members of the plans are represented. Disclosures relating to the individual pension trust funds are as follows:

A. General Employees' Retirement System:

1. Plan Description:

The City of St. Augustine General Employees' Retirement System (System), a single-employer defined benefit pension plan, was authorized in its original form by City Ordinance 88-54, amending Chapter 20, Article IV of the Code of the City of St. Augustine, effective September 26, 1988. City Ordinance 88-54 was amended in 2002 by City Ordinance 2002-05, and in 2006 by City Ordinance 2006-06, which is the current ordinance in effect for the plan. The System is classified as a fiduciary trust fund of the City. The System is presented as a blended component unit of the City and stand-alone financial reports can be obtained through the City Clerk's office.

Any full-time City employee (those who work 40 or more hours per week), other than regular members of the Police and Fire Departments of the City, is eligible to become a member of this System. The City Manager may elect not to participate in the System. As of September 30, 2008, the System had 248 active participants, 99 retirees/beneficiaries and 10 vested terminated participants. The total payroll for eligible employees covered by this System was \$9,357,034.

As stipulated by City Ordinance 88-54, authority to establish and amend benefit provisions of the System rest with the City Commission, along with the authority to provide for cost of living adjustments. Benefits are calculated using the average of the highest five years of earnings within ten years of retirement or termination. For each year of credited service to a maximum of 35 years, monthly benefits shall be earned at the rate of two and a half percent of the member's average final salary. A supplemental annuity benefit is available to senior managers and directors pay grade 32 and above who retire after March 31, 2002, with ten or more years of credited service earned after March 31, 2002. The annuity amount is .5 percent of final average compensation times credited service up to 35 years for service in pay grades 32 through 35 and 1 percent of final average compensation times credited service up to 35 years for pay grades 36 and higher. Benefits are paid for the life of the participant with 60 percent continued to a surviving eligible spouse, unless optional forms of payments are elected. Eligibility for normal retirement is the earlier of age 65 and 5 years of service, age 60 and 10 years of service, or age 55 and 25 years of service. No benefits will be paid to a member upon termination if the termination occurs prior to the completion of ten years of service. The member, however, will receive his or her contribution to the plan, along with 3 percent interest.

Notes to the Financial Statements September 30, 2008

NOTE 10. EMPLOYEE BENEFITS: (Continued)

If a member of the System dies a non-duty death or becomes disabled prior to five years of service, the member or beneficiary will receive a refund of the member's contribution to the fund. If a member dies in the line of duty or has 5 years of service, the eligible spouse will receive 60 percent of the projected benefits (with service credit extended to age 60) and eligible children will receive 10 percent of the projected benefits to a maximum of 20 percent.

Duty related disability with five or more years of service provides benefits under the group disability insurance contract. Upon termination of insurance, the pension benefit is computed as a normal retirement with additional service credit granted.

In the event the Plan terminates, the assets of the retirement system shall be apportioned and distributed in accordance with the established provisions of Section 20-135 of the City of St. Augustine Code, which provides for the distribution of assets in the following order:

- a. To provide for all expenses of the Plan including any cost of liquidation; then
- **b.** To provide for the payment of each participant and non-retired former participant an amount equal to his or her accumulated participant contributions; then
- c. To provide for the continuance of retirement allowances to retirees and beneficiaries; then
- **d.** To provide for the potential rights of participants and former participants entitled to a vested termination retirement allowance; then
- e. To revert back to the City if any excess exists after satisfying subsections a through d above.

The Plan is a governmental benefit plan and is tax exempt under the IRS Code.

2. Summary of Accounting Policies:

The following are the significant accounting policies followed by the System:

- a. <u>Basis of Accounting</u> The financial statements of the System are prepared using the accrual basis of accounting in conformity with generally accepted accounting principles. Under this basis, revenue is recognized in the period earned, expenses are recognized in the period the obligation is incurred, and employee and employer contributions are recognized as revenue in the period in which the employee services are performed.
- b. <u>Valuation of Investments</u> Investments are reported at fair value as provided by the System's asset managers, Principal Mutual Life Insurance Company and Salem Trust Company. The summary of investments at September 30, 2008, is as follows:

	Cost Value	 Market Value
Bond & Mortgage Fund	N/A	\$ 6,614,265
Real Estate Fund	N/A	2,116,010
Corporate & Foreign Bonds	N/A	386,596
Mutual FundsInternational Equity	N/A	1,484,288
Cash & Short term Investments	N/A	593,678
U.S. Stock Fund	N/A	8,179,238
		\$ 19,374,075

Notes to the Financial Statements September 30, 2008

NOTE 10. EMPLOYEE BENEFITS: (Continued)

3. Funding Policy, Contributions, Status and Progress:

The City of St. Augustine General Employees' Retirement System is funded under the provisions of Chapter 20, Article IV, St. Augustine Code and Chapter 112, Florida Statutes. Funding arrangements include contributions by retirement system members, the City of St. Augustine, and investment income from retirement system assets. Administrative costs of the System are financed through investment earnings.

Effective November 8, 1988, contributions by retirement system members are based on four percent of compensation while the City of St. Augustine contributes one percent of compensation on behalf of the employees. Previously, retirement system members contributed five percent of compensation.

The System's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to accumulate sufficient assets to pay benefits when due. The current rate contributed as a percentage of covered payrolls is 9.52 percent.

The following is funded status information for the plan as of October 1, 2008, the most recent actuarial valuation date (in thousands):

_		(1)	(2)		(3)	(4)	(5)	(6)
			Actuarial	J	Infunded			UAAL as a % of
	Actuarial	Actuarial	Accrued		AAL	Funded		Covered
	Valuation	Value of	Liability (AAL)		(UAAL)	Ratio	Covered	Payroll
	Date	Assets	Entry Age		(2)-(1)	(1)/(2)	Payroll	[(2)-(1)/(5)]
	9/30/2008	\$ 23,258	\$ 27,153	\$	3,895	85.66%	\$ 9,357	41.63%

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

4. Annual Pension Cost:

For 2008, the City's annual pension cost was \$872,326. The City's actual contribution was \$1,039,614. The annual required contribution for the current year was determined as part of the October 1, 2006, actuarial valuation using the entry age actuarial cost method. The actuarial assumptions in the October 1, 2006, valuations included (a) 8.0% investment rate of return; (b) projected salary increases ranging from 4% to 8% per year; and (c) 3.5% rate of inflation. The assumptions did not include postretirement benefit increases. The actuarial value of assets was determined by adjusting the expected values of assets as of any valuation date by a portion of the cumulative differences of the market value of assets and the expected actuarial value of assets. Each difference is fully recognized over a period not to exceed five years. The unfunded actuarial liability is being amortized over 15 years as a level percentage of projected payroll on a closed basis.

B. Police Officers' Retirement System

1. Plan Description:

The St. Augustine Police Officers' Retirement System (System), a single-employer defined benefit plan, was created June 1, 1957, by the City of St. Augustine, Article X of the St. Augustine Code, under the provisions of general law pertaining to Municipal Police Officers' Retirement Trust Fund (Chapter 185, Florida Statutes). The System is presented as a blended component unit of the City and stand-alone financial reports can be obtained through the City Clerk's office.

Any police officer who is a regular member of the police department of the City of St. Augustine is a member of this retirement system. As of September 30, 2008, the System had 44 active participants, 20 retirees/beneficiaries, 3 disabled participants and 6 vested/terminated participants. The total payroll for eligible employees covered by this System was \$2,495,079.

As stipulated by City Ordinance 88-75, authority to establish and amend benefit provisions of the retirement system rests with the City Commission, along with the authority to provide cost of living adjustments. Benefits are calculated using the average of the highest five years of earnings within ten years of retirement or termination. For each year of creditable service, monthly benefits shall be earned at the rate of 2.5 percent to 3.0 percent of the member's average final salary. Benefits are paid for life with 120 monthly payments guaranteed. Eligibility for normal retirement is the earlier of age 55 and 10 years of service or 25 years of service regardless of age. No benefits will be paid to a member upon termination if termination occurs prior to the completion of 10 years of service.

If a retirement system member dies before becoming eligible for any retirement benefits, the beneficiary will receive a refund, not including interest, of the deceased's member contributions to the fund. If ten

Notes to the Financial Statements September 30, 2008

NOTE 10. EMPLOYEE BENEFITS: (Continued)

years of creditable service had been attained, then the accrued benefit of the member is due to the surviving spouse, payable in 120 monthly payments. Disability benefits are based on the accrued benefit and are due to the member as of the disability retirement date. Minimum benefit is 42 percent of the average monthly earnings if the disability occurred in the line of duty, otherwise, the minimum benefit would be 25 percent of the average monthly benefits.

In the event the plan terminates, or upon written notice to the Board of Trustees that contributions they are under are being permanently discontinued, the assets of the retirement system shall be apportioned and distributed in accordance with the established provisions of Section 185.37, Florida Statutes. The amount of benefits which at the time of termination has accrued to the member or beneficiary shall not be affected, except to the extent that the assets of the retirement system may be determined to be inadequate.

The plan is a governmental benefit plan and is tax exempt under the Internal Revenue Service Code.

2. Summary of Accounting Policies:

- **a.** <u>Basis of Accounting</u> The financial statements of the System are prepared using the accrual basis of accounting in conformity with generally accepted accounting principles. In addition, fair value is used in the financial statements in presenting investments. Under this basis, revenue, including net changes in fair value of investments, is recognized in the period earned, expenses are recognized in the period the obligation is incurred, and employee and employer contributions are recognized as revenue in the period in which the employee services are performed.
- **b.** <u>Valuation of Investments</u> Quoted market prices, not original costs, are used to value investments as provided by Salem Trust Company, investment custodians for the plan. Many factors are considered in determining the fair value of these investments. The results of these factors may cause the fair value of these investments to increase or decrease during the course of the year. On many occasions, the fair value may be higher or lower than the original purchase price of the investment.

	Cost Value	 Fair Value	
Corporate Bonds	N/A	\$ 2,750,347	
Governmental Obligations	N/A	1,427,244	
Stocks	N/A	6,751,320	
		\$ 10,928,911	

3. Funding Policy, Contributions, Status and Progress:

The St. Augustine Police Officers' Retirement System is funded under the provisions of Article X, Section 10.03, St. Augustine Code and Chapter 185.07, Florida Statutes. Funding arrangements include contributions by retirement system members, the City of St. Augustine, percentage of casualty insurance premiums collected on property located within the corporate limits of the City of St. Augustine, accretions to the fund by way of interest on bank deposits or otherwise, and any other source of income authorized by law to increase the retirement fund. At September 30, 2008, contributions by retirement system members are based on 5.5 percent of compensation while the City of St. Augustine contributes a minimum of 2.5 percent of compensation. Previously, retirement system members contributed four percent of fixed monthly compensation. The Board of Trustees for the Plan anticipates the above funding methods will result in all members' benefits being fully provided for by the time of their retirement. Effective October 1, 1993, the member contributions were changed from after tax compensation to pre-tax compensation.

Administrative costs are funded by City and member contributions.

Notes to the Financial Statements September 30, 2008

NOTE 10. EMPLOYEE BENEFITS: (Continued)

The Plan's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to accumulate sufficient assets to pay benefits when due. The City made an actuarial contribution of 2.46 percent during the fiscal year ended September 30, 2008, in addition to the ordinance-required contribution of 1.5 percent.

The following is funded status information for the plan as of Octobeer 1, 2008, the most recent actuarial valuation date (in thousands):

	(1)	(2)		(3)	(4)	(5)	(6)
		Actuarial	1	Unfunded			UAAL as a % of
Actuarial	Actuarial	Accrued		AAL	Funded		Covered
Valuation	Value of	Liability (AAL)		(UAAL)	Ratio	Covered	Payroll
Date	Assets	Entry Age		(2)-(1)	(1)/(2)	Payroll	[(2)-(1)/(5)]
9/30/2008	\$ 12,951	\$ 13,473	\$	522	96.13%	\$ 2,495	20.92%

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

4. Annual Pension Cost:

For 2008, the City's annual pension cost was \$415,753. The actual contribution was \$381,564. The annual required contribution for the current year was determined as part of the October 1, 2006, actuarial valuation using the Individual Entry Age Actuarial Cost Method. The actuarial assumptions in the October 1, 2006, valuations included (a) 8% investment rate of return; (b) projected salary increases ranging from 4.5% to 8% per year; and (c) 3.5% rate of inflation. The assumptions did include post retirement benefits with a cost of living adjustment of up to 3.5%. The actuarial value of assets was determined by adjusting the expected value of assets as of any valuation date by a portion of the cumulative differences of the market value of assets and the expected actuarial value of assets starting from October 1, 1990. Each difference is fully recognized over a period not to exceed five years. The unfunded actuarial liability is being amortized over 15 years as a level percentage of projected payroll on a closed basis

Notes to the Financial Statements September 30, 2008

NOTE 10. EMPLOYEE BENEFITS: (Continued)

5. Concentrations:

As of September 30, 2008, the Plan had no investments that exceeded five percent of the Plan's net assets as of that date.

C. Firefighters' Retirement System:

1. Plan Description:

The City of St. Augustine Firefighters' Retirement System (System), a single-employer defined benefit pension plan, was authorized in its present form by City Ordinance 87-60, amending Chapter 20, Article V of the Code of the City of St. Augustine, effective December 4, 1987. The System is classified as a fiduciary trust fund of the City. The System is presented as a blended component unit of the City and stand-alone financial reports can be obtained through the City Clerk's office.

Any City full-time firefighter and retired firefighter is eligible to become a member of this System. As of September 30, 2008, the System had 31 active participants, 20 retirees/beneficiaries, and 1 terminated vested participant. The total payroll for employees covered by this System for the year ended September 30, 2008 was \$1,412,872.

As stipulated by City Ordinance 87-60, authority to establish and amend benefit provisions of the Fund rest with the City Commission, along with the authority to provide for cost of living adjustments. Benefits are calculated using the average of the highest five years of earnings within ten years of retirement or termination. For each year of credited service to a maximum of 35 years, monthly benefits shall be earned at the rate of 2.75 percent of the member's average final compensation. Benefits are paid for the life of the participant with ten years certain. Eligibility for normal retirement is the earlier of age 55 and 10 years of credited service or 25 years of credited service, regardless of age. No benefits will be paid to a participant if termination occurs prior to the completion of ten years of service. Such participants, however, will receive their contributions to the plan along with three percent interest.

If a member of the Fund dies a non-duty death prior to five years of service, the beneficiary will receive the member's contribution with three percent interest. If a member dies in the line of duty or has five years of credited service, the beneficiary will receive the value of accrued benefits based on the member's average final compensation (AFC) and credited service. Disability benefits, as determined by the Board of Trustees, are the member's accrued benefits, but not less than 42 percent of AFC for service incurred and 25 percent for non-service incurred disabilities. Benefits are paid in the form of a ten-year certain and life annuity.

In the event the plan terminates, the assets of the retirement system shall be apportioned and distributed in accordance with the established provisions of Section 20-210 of the Code of the City of St. Augustine. The amount of benefits, which at the time of termination has accrued to the member or beneficiary shall not be affected except to the extent that the assets of the retirement system may be determined to be inadequate.

The plan is a governmental benefit plan and is tax exempt under the IRS Code.

2. Summary of Accounting Policies:

The following are the significant accounting policies followed by the System:

a. <u>Basis of Accounting</u> - The financial statements of the System are prepared using the accrual basis of accounting in conformity with generally accepted accounting principles. Under this basis, revenue is recognized in the period earned, expenses are recognized in the period the obligation is incurred, and employee and employer contributions are recognized as revenue in the period in which the employee services are performed.

Notes to the Financial Statements September 30, 2008

NOTE 10. EMPLOYEE BENEFITS: (Continued)

b. <u>Valuation of Investments</u> – Investments are reported at fair value as provided by the Fund's investment manager Fifth Third Bank. Fifth Third arrives at fair value through the use of broker and pricing services. The summary of investments at September 30, 2008, is as follows:

	Cost		Fair	
		Value		Value
U.S. Government and Agencies	\$	1,940,811	\$	1,975,295
Corporate Bonds		751,351		668,253
International exchange traded fund		804,975		610,799
Common Stock & Short Term Investments		4,145,060		3,538,180
Foreign Bonds		142,688		141,622
	\$	7,784,885	\$	6,934,149

3. Funding Policy, Contributions, Status and Progress:

The City of St. Augustine Firefighters' Retirement System plan was created in 1987 under City Ordinance 87-60 amending Section 20, Article V of the Code of the City of St. Augustine, Florida. The Plan was substantively amended in 1993, 1995, 2000, 2001 and 2005. In addition, the Plan is a local law plan subject to provisions of Chapter 175 of the State of Florida Statutes. Funding arrangements include contributions by retirement system members, the City of St. Augustine, 1.85 percent premium tax for property insurance and investment income from the retirement system assets. Administrative costs of the fund are financed through investment earnings. For the current fiscal year the state premium tax revenue was \$277,768 and the City expended the full amount to the Pension Fund.

Effective September 22, 2008, contributions by retirement system members are based on five percent of compensation while the City of St. Augustine contributes one percent of compensation on behalf of members. Previously, retirement system members contributed four percent.

The Plan's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to accumulate sufficient assets to pay benefits when due. The City was required to make an actuarial contribution of 5.2 percent during the Fiscal Year ended September 30, 2008, in addition to the ordinance-required contribution of 1.5 percent and ordinance-required one percent on the employee's behalf.

The following is funded status information for the plan as of October 1, 2008, the most recent actuarial valuation date (in thousands):

		(1)	(2)	(3)	(4)	(5)	(6)
ſ			Actuarial	Unfunded			UAAL as a % of
١	Actuarial	Actuarial	Accrued	AAL	Funded		Covered
ı	Valuation	Value of	Liability (AAL)	(UAAL)	Ratio	Covered	Payroll
ı	Date	Assets	Entry Age	(2)-(1)	(1)/(2)	Payroll	[(2)-(1)/(5)]
	9/30/2008	\$ 8 222	\$ 8.031	\$ (191)	102.38%	\$ 1413	-13 52%

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

4. Annual Pension Cost:

For 2008, the City's annual pension cost was \$44,996. The City's actual contribution was \$106,364. The annual required contribution for the current year was determined as part of the October 1, 2006, actuarial valuation using the frozen entry age actuarial cost method. The actuarial assumptions in the October 1, 2006, valuations included (a) 8% investment rate of return; (b) projected salary increases of 7% per year; and (c) 3.5% rate of inflation. The assumptions did include post retirement benefits with a cost of living

Notes to the Financial Statements September 30, 2008

NOTE 10. EMPLOYEE BENEFITS: (Continued)

adjustment of up to 3.5%. The actuarial value of assets was determined by adjusting the expected value of assets as of any valuation date by a portion of the cumulative differences of the market value of assets and the expected actuarial value of assets starting from October 1, 1990. Each difference is fully recognized over a period not to exceed five years. The unfunded actuarial liability is being amortized over 15 years as a level percentage of projected payroll on a closed basis.

5. Concentrations:

As of September 30, 2008, the Plan had no investments that exceeded five percent of the Plan's net assets as of that date.

NOTE 11. 457 TAX-DEFERRED COMPENSATION PLAN:

The City offers its employees a deferred compensation plan created in accordance with the Internal Revenue Code, Section 457. On August 20, 1996, Section 457 of the Code was amended with the passage of the Small Jobs Protection Act of 1996. The Code now requires employers to maintain the plan assets in a trust, custodial account or annuity for each individual member as of January 1, 1999. Since the inception of its plan on October 1, 1993, the City has deposited all funds in a custodial account with The Variable Annuity Life Insurance Company.

In October 1997, the GASB issued Statement No. 32, Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans. This statement allows the employer to not report the assets and liabilities in their financial statements if the employer has met the new criteria of the Internal Revenue Code, Section 457 and does not retain fiduciary accountability for the plan assets. In fiscal year 1998, the City amended its deferred compensation plan to reflect the changes in the Internal Revenue Code and, in the opinion of management, does not retain fiduciary accountability for plan assets. Accordingly, the City has implemented GASB No. 32 and is no longer including the assets and liabilities of the deferred compensation plan in its financial statements. There is no effect on the City's overall fund balance as the plan was an agency fund in which plan assets equal liabilities.
