Citizen Board Workshop Meeting Summary

Joint meeting of the Planning and Zoning Board (PZB) and the Historic Architectural Review Board (HARB)

Note: The Boards made several suggestions and critiques of the format and material presented. City staff will work to provide additional information and clarify the material for the Boards in the future.

Board Comments

- Prioritize projects and potential projects to inform them
- Look at pressures on the whole city
- Hazard mitigation issues, and the implications of lifting buildings and associated issues
- Mapping and documenting resources
- Look at all of the goals because everything is related
- Balance detail to describe concepts, but not be too specific or regulatory – streamline
- Clarify things that impact the land development code (LDC) vs more general goals
