CITY OF ST. AUGUSTINE**

Project Goal: Lincolnville Utility Rehabilitation Project – Phase 2 (South and DeHaven Streets)

This project received cost share funding from the St. Johns River Water Management District (storm drainage improvements) and the Community Development Grant Block (CDBG) program (storm drainage and utility improvements). This will consist of storm, water and sewer work on sections of South and DeHaven Streets. This project will replace aging utilities (sewer) and provide storm drainage improvements, with reconstruction of the road once the utility work is completed. Additionally, approximately 1.4 miles of roads will be resurfaced.

Project Improvements

The City will be requesting formal bids to perform the following work:

- Installing new storm drainage infrastructure on South and DeHaven Streets (pipe and inlets,)
- Replacing existing gravity sewer.
- Replacing existing water main.
- Reconstructing existing sidewalk impacted during construction.
- Reconstructing the road once the utility work is completed.
- Milling and resurfacing of approximately 1.4 miles of roads including portions of: Weeden, Sanford, Moore, Twine, Blanco and Cerro Streets and Martin Luther King Avenue

Note: The contractor may need to close off sections of South and De Haven Streets during portions of the construction in order to complete the storm drainage work, water and sewer replacement. A MAINTENANCE OF TRAFFIC PLAN will be in place to direct traffic flow during the Road Closure. Access to existing driveways will be maintained to the best of the contractor’s ability during the work. Please follow road closure and detour signs and plan accordingly.

Project Approved

By the St. Johns River Water Management District on June 13, 2017. By the City Commission on September 25, 2017 for the St. Johns River Water Management District Cost Share Agreement.

Questions Concerning the Project

Project Manager (City of St. Augustine): Jessica Beach, Professional Engineer

Phone: 904-209-4227 or

Public Works Main Number: (904) 825-1040

Project Contractor

To be determined – formal bidding process

Project Schedule

Finalize plans: October 2018

Formal Bidding Process: November 2018 – March 2019

Construction: March 2019 - September 2019

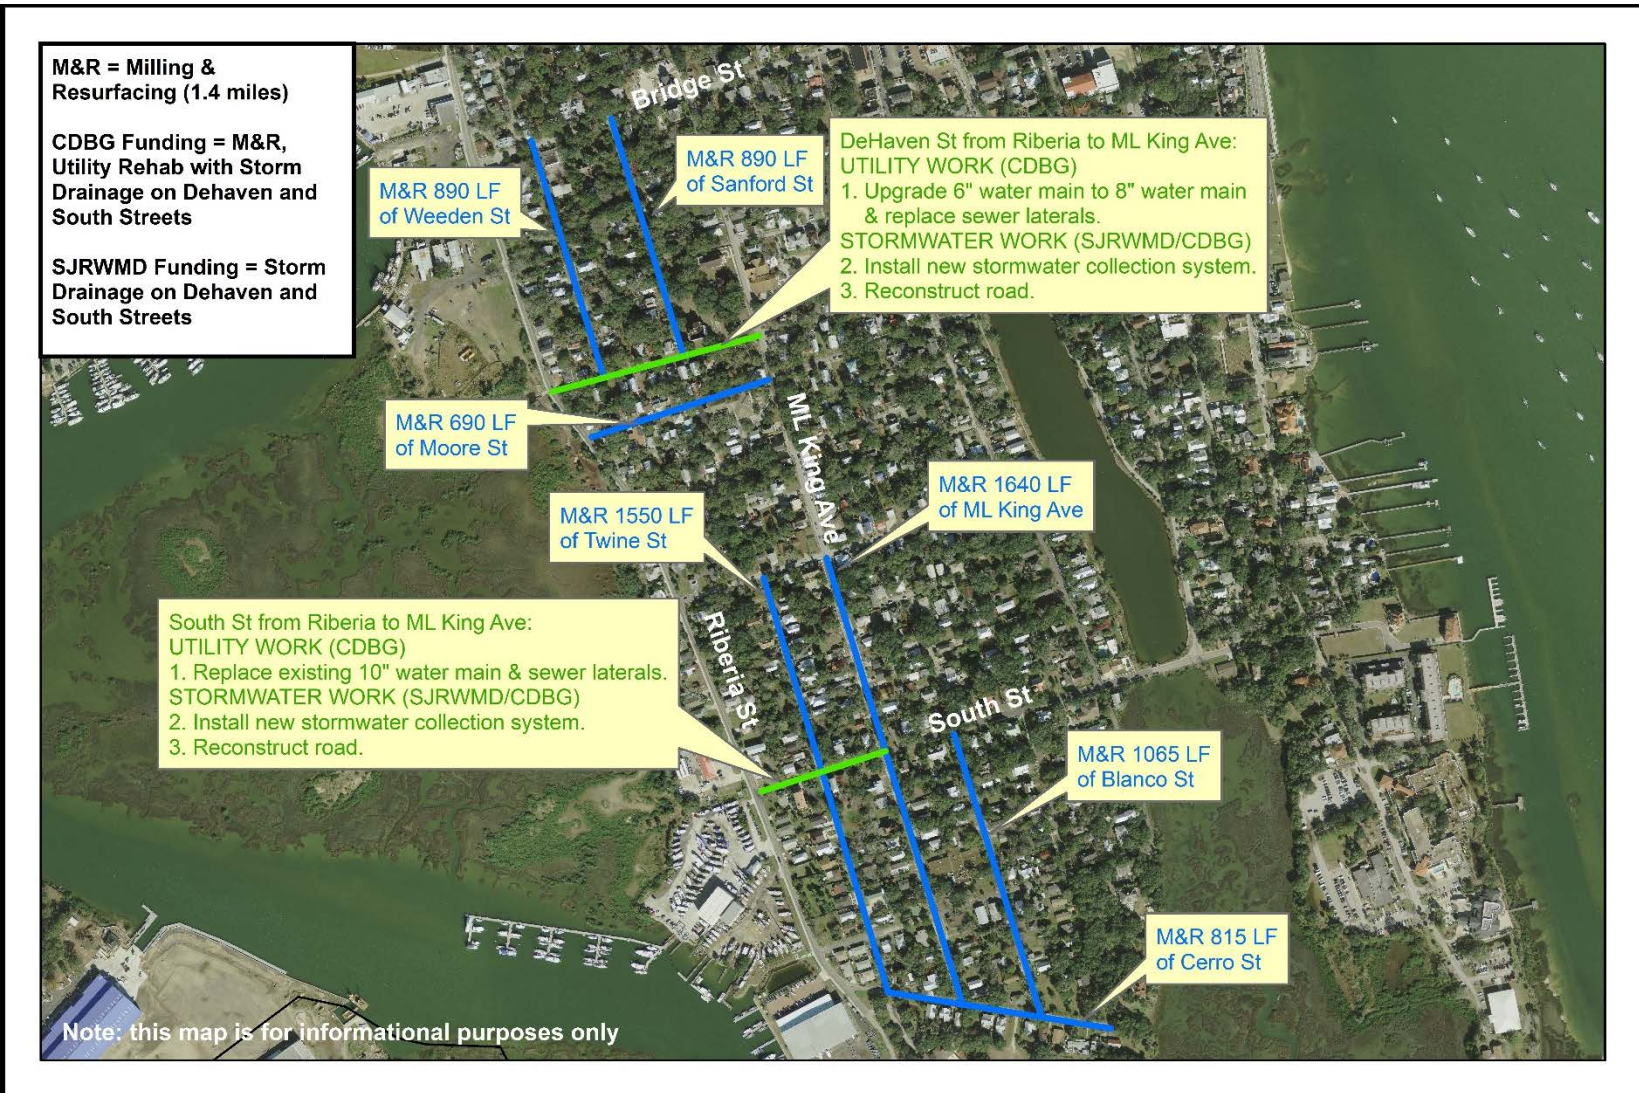

Project Overview: This project was approved by the St. Johns River Water Management District’s Governing Board for Cost Share funding for the District’s General Cost Share Program for FY17-18. As such, up to 33% of the construction costs will be covered as part of this cost share program for the storm drainage improvements. Additionally, CDBG grant funding will cover the utility and road work and a portion of the stormwater work. During construction, portions of South and DeHaven Streets may be closed in order to complete the improvements. The contractor will make every effort to expedite the project to minimize the road closure and we ask for your patience during this time. A maintenance of traffic plan will be in place, including signage and routing of traffic. Work hours will be Monday – Friday, 7:00 AM – 5:30 PM. The enclosed project map shows where the work will occur. Please plan accordingly and we appreciate your patience.

Stormwater Utility Friendly Reminder

Help reduce environmental contamination by calling the Public Works Department at 825-1040 and reporting cave-ins, unusual amounts of standing water, clogged drains; illegal disposing of lawn debris, paint, oil, gas or any other items into the drainage system.
