

## CONSTRUCTION PROJECT INFORMATION FLYER CITY OF ST. AUGUSTINE

### North City Water Main Improvements

The North City Water Main Improvements project will replace aging cast iron water mains in the Uptown neighborhood and relocate potable water point-of-services from backyard alleys to the street front. The affected streets include: Hope St; Cincinnati Ave; unnamed alley; Loring St; First St; Rohde Ave; East Ln; DuPont Ln; and Grove Ave.

#### Project Improvements

T B Landmark Construction, Inc. will furnish, install, and perform the following work:

- Remove and place out-of-service existing old cast iron (CI) potable water mains
- Install 8,000 linear feet of new 6-, 8-, and 10-inch PVC and HDPE potable water mains
- Remove, replace, and install new fire hydrants
- Relocate existing back-alley water services to new street-front water mains
  - Reroute private plumbing for new street-front water service
- Paving - Full width mill and resurface existing asphalt roadways impacted by construction

Uptown neighborhood customers will benefit from improved water quality, water pressure, fire flow, and reduced service interruptions. System wide customers will benefit from improved water quality and service.

#### Project Approved

Approved by the City Commission as part of the City of St. Augustine Capital Improvement Plan.

#### Questions Concerning the Project

##### **Construction Inspector:** Brett Brown

Phone: 904-209-4284 (office)

904-669-7232 (cell)

E-mail Address: [bbrown@citystaug.com](mailto:bbrown@citystaug.com)

##### **Project Manager:** Stephen Slaughter, P.E.

Phone: 904-209-4274 (office)

E-mail Address: [sslaughter@citystaug.com](mailto:sslaughter@citystaug.com)

#### Project Contractor

T B Landmark Construction, Inc.

Office Number: 904-751-1016

After Hours Number:

#### Project Schedule

Open House: January 10, 2019, City Hall, Alcazar Room, 5-7pm

Start Date: January 2019

Completion Date: February 2020

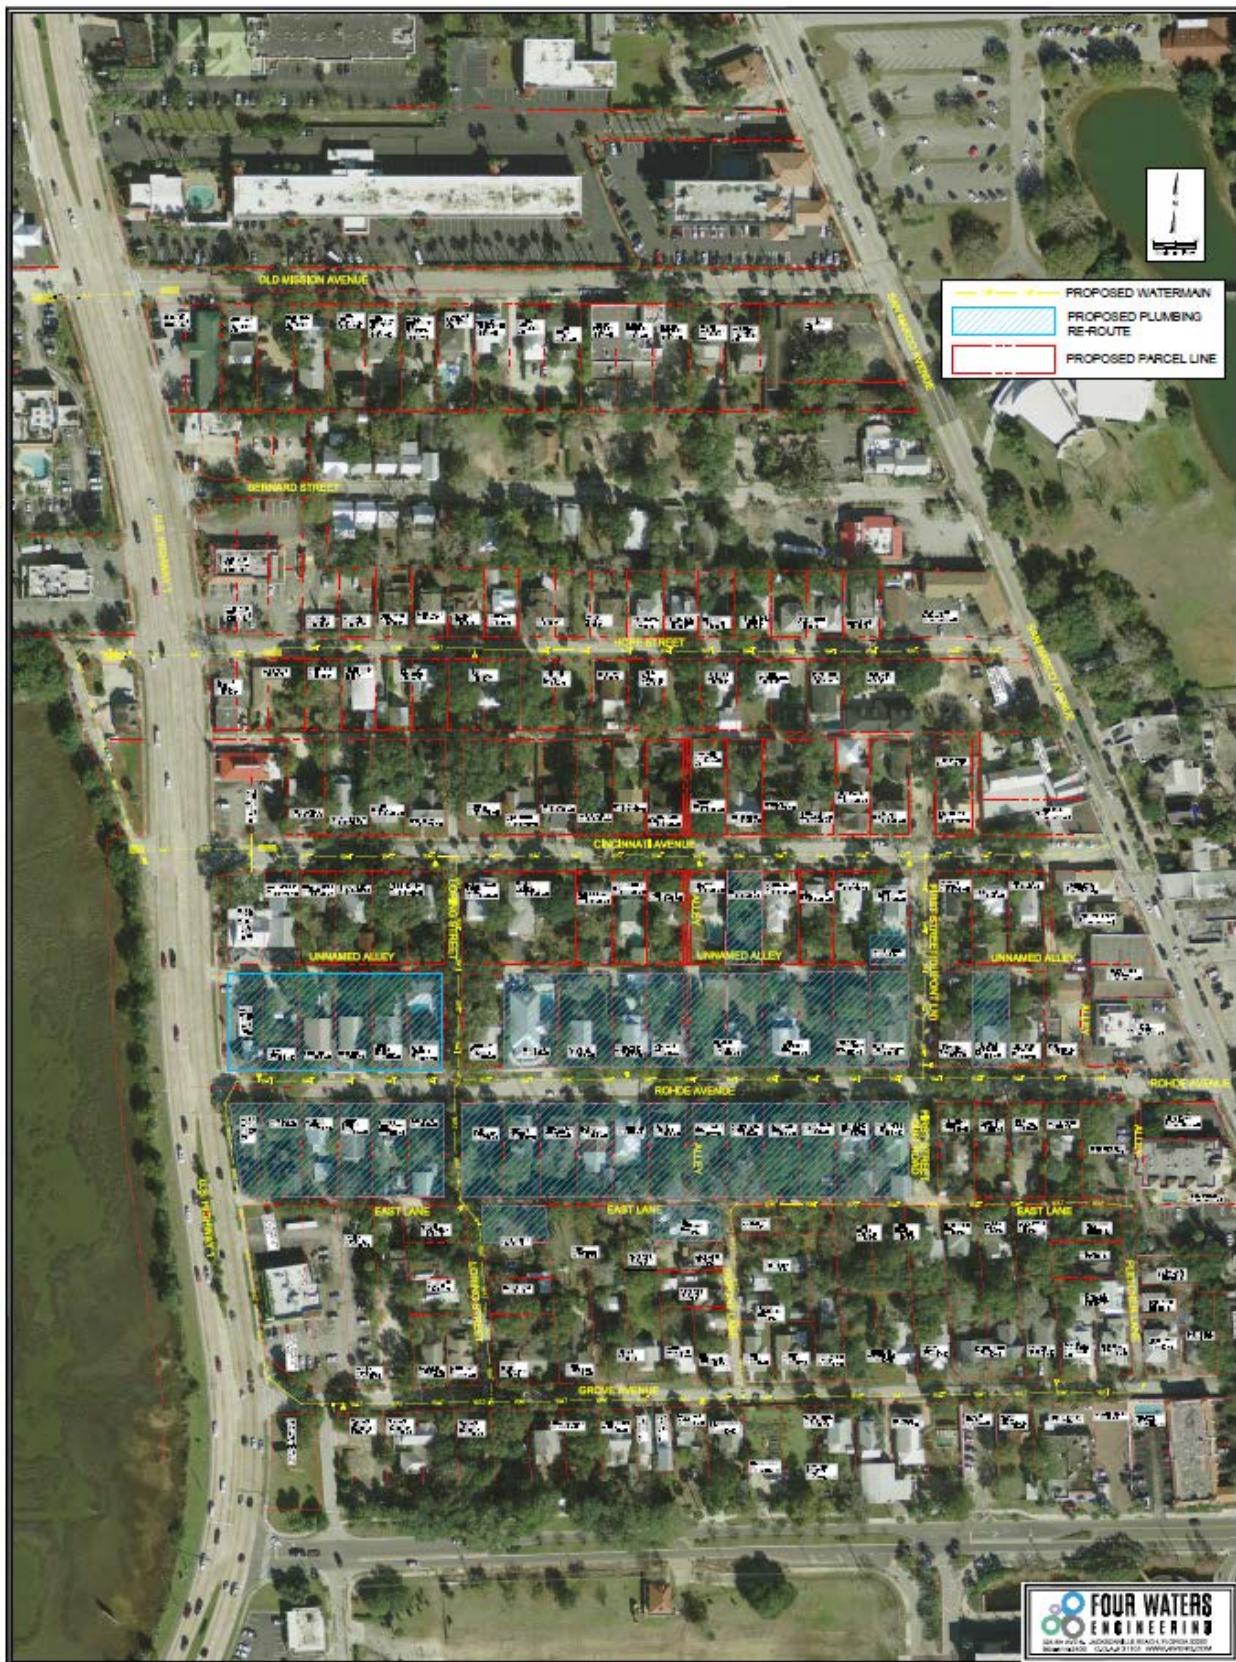

**Project Overview:** During the construction phase, the contractor will make every effort to provide access to resident's entrances to driveways, subdivisions and businesses during the day. There may be times when driveways or entrances may be inaccessible, but our intent is to minimize any inconveniences to the local residents and businesses during this project phase, and we ask for your patience as this project progresses. At the end of each weekday, the excavation areas will be backfilled and compacted; and all residential and business driveways should be accessible. The contractor will be videotaping the entire project area prior to starting the construction to verify the existing conditions. The contractor may also be contacting property owners to identify any irrigation systems located within the construction areas. Any damage caused by construction will be repaired by the contractor at no cost to the owner.

#### **Stormwater Utility Friendly Reminder**

Help reduce environmental contamination by calling the Public Works Department at 904-825-1040 and reporting cave-ins, unusual amounts of standing water, clogged drains; illegal disposing of lawn debris, paint, oil, gas or any other items into the drainage system.
